Re: Davis Liquid Landfill

Dear Mr. Kenyon:

I am writing in response to your letter of April 1, and the comments made at the meeting which I attended on behalf of Hoechst Celanese Corporation (formerly American Hoechst Corporation) on April 13. As we indicated during the question and answer session, and in our past correspondence with the Agency, Hoechst has no evidence that it ever utilized the Davis Liquid Landfill site. Hoechst has always cooperated with EPA with respect to environmental matters, and intends to continue such cooperative efforts. However, until Hoechst receives information indicating that its materials were disposed of at the Davis Liquid Site, we cannot make an informed decision as to future actions.

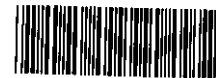

We look forward to receiving the documentation you indicated that you would be providing us within the next few weeks. As soon as we have had an opportunity to review that information, we will be in a better position to respond with respect to the environmental issues posed by the Davis Liquid Landfill site.

Sincerely,

Lorelei Joy Borland
